

How to uninstall SUMADI app – Mac OS

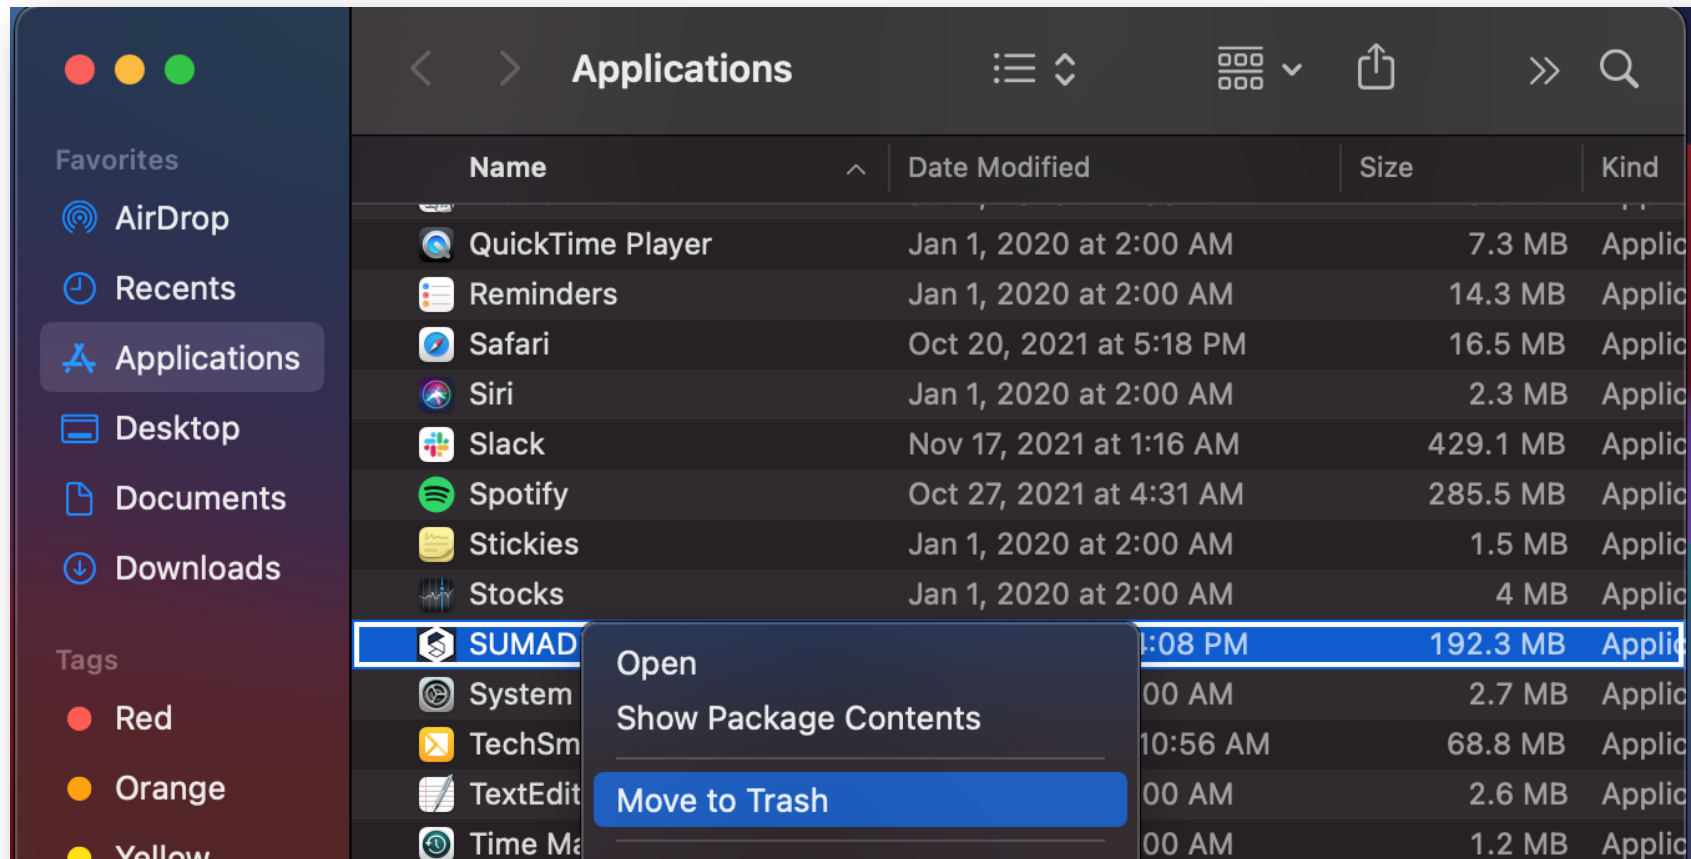

- 1 To completely remove SUMADI™ app from your MAC, go to the top menu bar of the “*Finder*” and through the “*Go*” option, select the “*Applications*” folder.

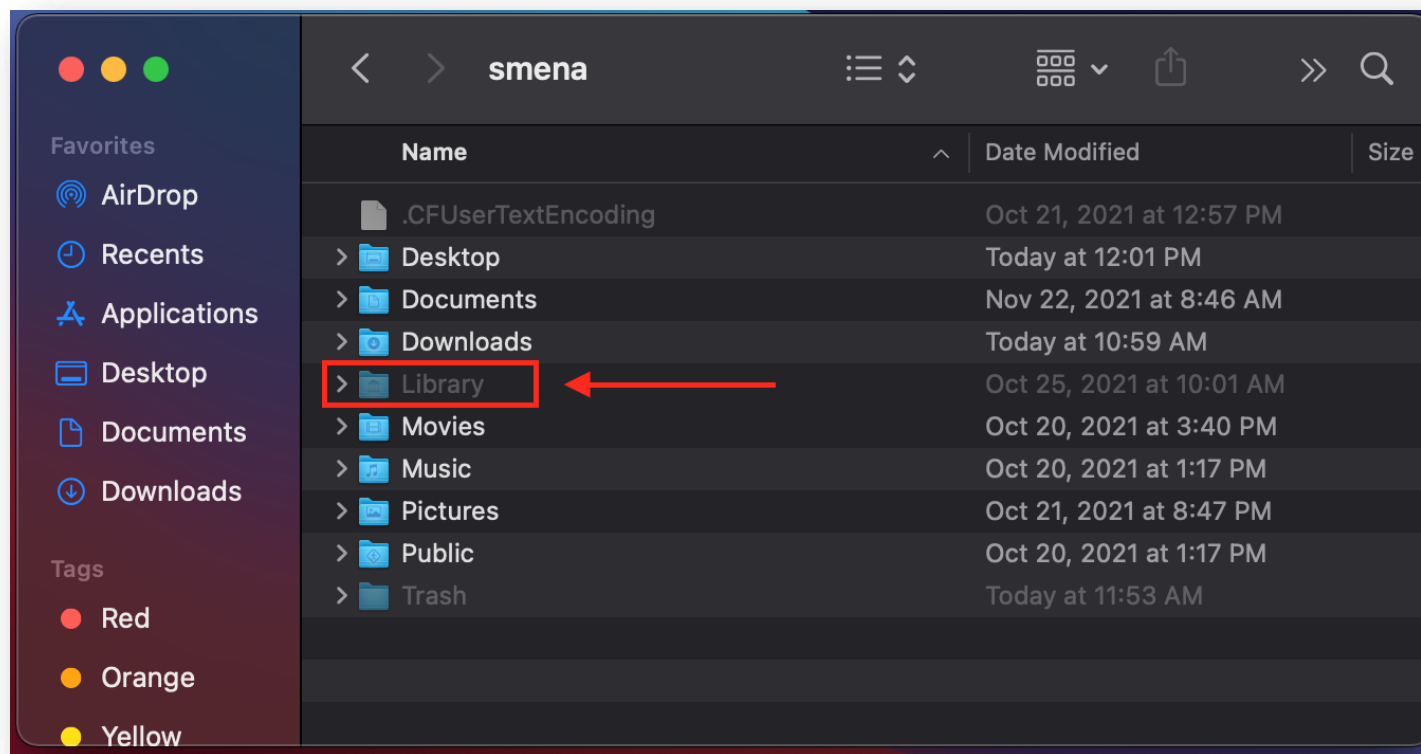

2

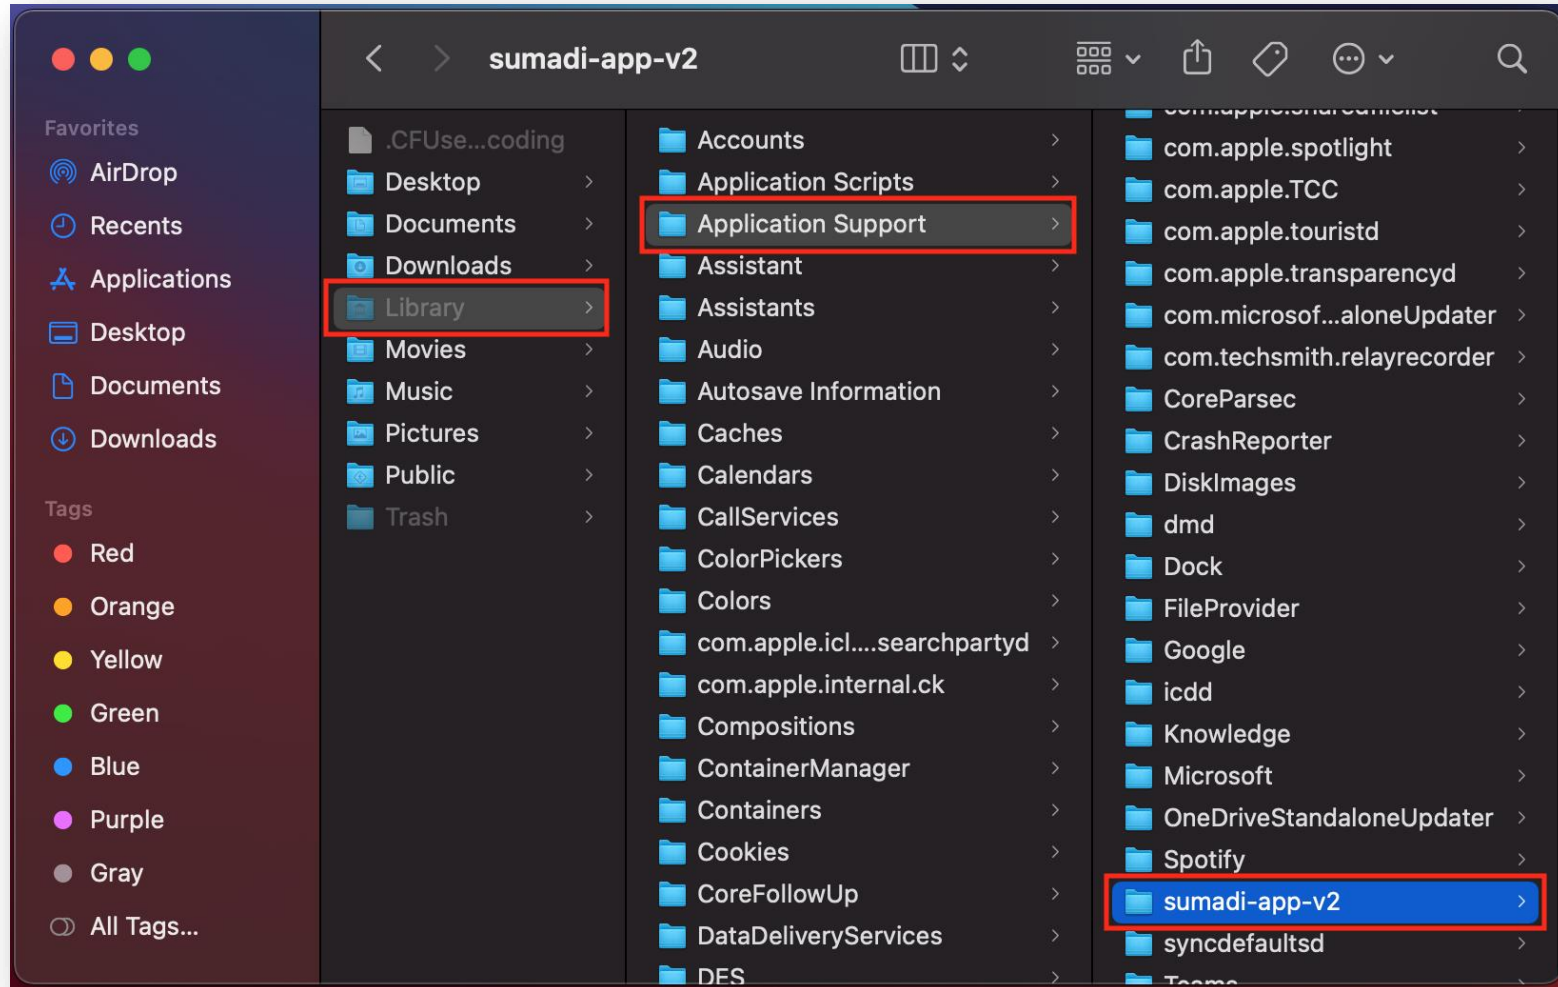

Go to the SUMADI™ app and double click to display options, select the **“Move to trash”** option.

- 3 After moving the app to the trash, in your Finder press the key combination "**cmd + shift + H**" to go to the **User** folder.
- 4 In your user folder, press the key combination "**cmd + shift + .**" to enable hidden folders and display the "**Library**" folder.

- 5 In the “*Library*” folder, go to the “*Application Support*” folder and delete all the files named “*Sumadi*” or “*Sumadi-app-v2*”.

- 6 In the “*Library*” folder, go to the “*Logs*” folder and delete all the files named “*Sumadi*” or “*Sumadi-app-v2*”.
